Services NOT offered:

- Aural Hematoma repair
- Splenectomy
- Feline or Rabbit Dental cleanings

Automatic Decline for Surgery:

- Diabetic
- Addisonian
- Less than 2lbs or greater than 100lbs
- Older than 14 years

Some important things to note:

- Any animals 7+ years old are required to have a pre-op blood screen performed within 30 days prior to surgery

- We require proof of a Rabies vaccine for all dog and cat appointments. If your pet's rabies vaccine is expired, or your pet hasn't been given a rabies vaccine, one will be administered at the time of the appointment.
- Additional charges may apply if your pet has any of the following: recent or active heat, postpartum, overweight, pyometra/hydrometra, cryptorchid, aggression. \$20-\$100
